IMU AO Circular Letter 12/2024

To: The Adhering Organizations of the International Mathematical Union (IMU)

From: Christoph Sorger, IMU Secretary General

Heidelberg Laureate Forum 2025

Dear colleagues

The 12th [Heidelberg Laureate Forum](#) will take place in Heidelberg, Germany between 14–19 September 2025.

At the HLF, all winners of the Fields Medal, the Abel Prize, the ACM A.M. Turing Award, the Nevanlinna Prize/IMU Abacus Medal, and the ACM Prize in Computing are invited to attend. In addition, young and talented computer scientists and mathematicians are invited to apply for participation. The previous HLFs have been an exceptional success. The HLF serves as a great platform for interaction in the fields of mathematics and computer science.

Over the course of the week-long conference, young researchers will be given the possibility to connect with their scientific role models and find out how the laureates made it to the top of their fields.

Applications for participation at the 12th HLF are now open in three categories: Undergraduate/Pre-Master, Graduate PhD, and PostDocs.

The deadline for application is 11 February 2025, 11:59 p.m. Berlin time (CET/UTC+1)

The IMU Adhering Organizations and national mathematical societies can also nominate young researchers. Nominated persons get “priority treatment”, but, since there may be too many nominations, they have no acceptance guarantee. Nominators need to register via the link <https://application.heidelberg-laureate-forum.org>, click on “Register as Nominator” and enter the organization code XXXXXXXX when registering. Please note that all previous login information and nominator accounts were deleted in accordance with German data protection regulations.

All applications are reviewed by an international committee of experts to ensure that only the most qualified candidates are invited. There are about 100 spaces available for each discipline of mathematics and computer science. All applicants will be notified by the end of April 2025 whether or not they are invited.

The IMU asks its Adhering Organizations to distribute this information among their national mathematical communities, if possible, through the newsletters of the national mathematical societies.

Regards

Christoph Sorger
Secretary General of the International Mathematical Union
